JOURNAL ON

COMMUNICATIONS

VOLUME XLIV.

JULY 1993

SEMICONDUCTOR MODELLING

Wolke

Editorial	V. Székely	1
Trends in Microelectronics – European Perspectives	B. Courtois and M. Kerecsen-Rencz	2
Modelling Semiconductor Memory Faults	A. J. van de Goor	8
Evaluation of Carrier in Power Semiconductors Using Both Optical and Electrical Measurements Supported by Two-Dimensional Computer Simulation	P. Jonsson, M. Isberg, F. Masszi, F. Vojdani, E. Nordlander, M. Rosling and H. Bleichner	14
Evaluation and Interpretation 3D Monte Carlo Simulation Results of Submicron MOS Transistors	K. Tarnay, A. Poppe and T. Kocsis	23
Modelling Electro-Optical Interaction in MESFETs	T. Bercei, A. Baranyi, A. Hilt and J. Ladvánszky	32

Business – Research – Education

Materials Research in Hungary	J. Gyulai	36
-------------------------------------	-----------	----

News – Events

Report on COST TCT/MC Chairmen Meeting	K. Fazekas	41
Workshop on Computer Aided Methods and Technical Management in Electrical Engineering Education	M. Kerecsen-Rencz	41
Activities of the IEEE Hungary Section	L. Balint	42
